parking bays and one enclosed similar garage with double timber garage doors together with a side personal door and a log store side addition. There is electric light and power connected together with external sensor lighting, there is a cold water supply to the garages with an external tap. Within the car port area there is a high level storage deck.

THE WALLED REAR GARDEN

The rear garden faces ideally south westerly to get the maximum sunshine hours and best light. The professionally landscaped garden is laid out on three levels with a top entertainment patio with central blue brick inlay and ideal for alfresco dining and BBQs. There is external lighting, cold water and steps to the next level with lawn, flower beds, beech hedging and borders and a block paved path and a sheltered paved area with Acers trained over to provide summer shade. Further steps lead to the lower lawn with crescent paved path and additional planted beds and beech hedging. The garden is fully enclosed with external lighting and enjoys good privacy and seclusion.

FRONTAGE

The house is set back from the road behind a lower brick curved wall with wrought iron railings with matching central pedestrian gate and side opening. There is a York stone path leading to the front door with two external lantern lights and an original boot scrape. The front is laid to gravel for ease of maintenance with planted front hedging with bluebells beneath. There is a side parking driveway beyond which is a car port entrance to the driveway behind with front wrought iron gates and additional electric security gates to the rear. There is ceiling downlighting on sensors together with a power point.
